## **DEDICATION**

Dedicated to God Almighty for His enabling grace

&

To my family members for all their support.

## ACKNOWLEDGEMENTS

*“Bless the LORD, O my soul, and all that is within me, bless His holy name.” Psalm 103:1*

I am very grateful to the Almighty God, my help in ages past and my hope for years to come. I thank Him for all His help to me since the inception of my stay in Mountain Top University and for His enabling grace which helped me to successfully complete this project.

My heartfelt gratitude goes to my indefatigable Supervisor, Dr. Pius Onichabor for his unrelenting guidance, advice and suggestions which made this research work to be completed successfully and in due course.

I am very grateful to Dr. John Akinyomi, the Acting Dean of College of Humanities and Social Science (CHMS) for all the fatherly role you played not only to me but all the students in the College.

Also, my special thanks go to my Head of Department, Prof. S. Owualah for all his efforts in ensuring our success.

To my untiring and inexorable lecturers in the department of accounting and finance, Dr. J. Omokehinde, Mr T.A Taleatu, Mr E.O. Olurin , Mrs J. Abimbola and Mr S. Oladipo, accept my sincere gratitude.

I sincerely appreciate my parents, Pst. & Mrs Shonubi and my siblings and other family members like Mrs. Tope Popoola for all their support throughout the course of my study in the Institution.

To all my friends and colleagues in the school, I say a big thank you for providing a conducive and enabling environment for me and for all your encouragement and support.

Finally, I thank the Chancellor of the School, Dr. D. K. Olukoya, for pioneering this great institution made to churn out great minds with academic prowess and godly virtues. God bless you sir.

## **ABSTRACT**

The study examines the Effect of Cashless Policy on the Performance of Deposit Money Banks (DMBs) in Nigeria for the period 2012-2018. The study uses Automated Teller Machine (ATM), Point of Sale (POS) and Web Based Transactions (WBT) as independent variables to measure the cashless policy while Return on Assets (ROA) was employed as proxy for performance of the DMBs and used as the dependent variable. Hypotheses were formulated and tested using Simple Linear Regression analysis (SLR). There is a significant effect of Point on Sales terminal transactions on return on assets of deposit money banks in Nigeria. Automated teller machine transactions does not have a significant effect on return on assets of deposit money banks in Nigeria. Web based transactions has a significant effect on return on assets of deposit money banks in Nigeria. The study concludes that cashless policy has a significant effect on the performance of deposit money banks in Nigeria. The study recommends that management should pay more attention on the activities that will improve the ATM services of their banks if they wish to increase the ROA and enlighten customers on the convenience and importance of adopting mobile banking channels in completing their transactions and also provide them with adequate information on how to prevent fraudsters from gaining access to their accounts. Government and regulatory authorities should be able to provide security both physically and electronically to prevent the occurrence of hacking by fraudsters.

**Keywords: ATM, Cashless Policy, DMB, POS, WBT.**
